Project Management: Agile & Scrum, Waterfall, Sprint Planning, SDLC, JIRA, Confluence, Trello, ClickUp, Slack, Project Tracking

Programming & Automation: Python, SQL, API Integration (basics), Google Apps Script, JavaScript, HTML, CSS, Workflow Automation

Supply Chain & Operations: Supply Chain Management, Supplier Relationship Management, Vendor Management

WORK EXPERIENCE

Data Analyst — Nathji Agencies Pvt Ltd

Mar 2026 – Present | Lucknow, India

- Created interactive dashboards using Power BI and Tableau to communicate data insights to key stakeholders, facilitating informed decision-making.
- Applied data storytelling and visualization techniques across Power BI, Tableau, and Google Data Studio to present complex data in a clear, persuasive, and actionable manner.
- Developed and managed IT service level agreements (SLAs), documented technical processes, and maintained accurate IT asset inventory while ensuring on-time, in-budget project delivery.

Purchasing Analyst — Space Wings

Nov 2025 – Feb 2026 | Lucknow, India

- Conducted market research and supplier evaluations to identify and qualify new vendors, leading to a 20% increase in supply chain reliability.
- Applied data analytics and forecasting techniques to predict demand, optimize inventory levels, and reduce carrying costs.
- Implemented a vendor onboarding and management system, streamlining vendor qualification, contracting, and performance monitoring.

Data Analyst — Mirc Pvt Ltd

Aug 2023 – Oct 2025 | Lucknow, India

- Created interactive dashboards and visualizations to communicate data insights to key stakeholders, facilitating informed decision-making.
- Collaborated with technical teams to design and implement data collection and analysis systems, improving data accuracy and accessibility.
- Monitored system performance, created technical documentation, and managed vendor relationships.

Business Analyst — Workassist

Jun 2023 – Jul 2024 | Remote

- Translated stakeholder requirements into clear, actionable specifications for IT teams, improving development workflow clarity and reducing rework cycles.
- Tracked project milestones, deliverables, and budgets across multiple concurrent initiatives, ensuring on-time delivery and transparent stakeholder reporting.
- Partnered with cross-departmental stakeholders to define requirements for new projects, translating business objectives into technical scope (BRD/SRS).

- Supported UAT cycles and conducted gap analysis between current-state and future-state operations, recommending process improvements adopted by stakeholders.

Business Analyst — Oasys Cybernetic Pvt Ltd

Nov 2020 – May 2023 | Lucknow, India

- Authored and reviewed technical design documentation, improving the accuracy and reliability of reporting solutions for stakeholders.
- Analyzed industry trends and organizational data using Excel and SQL, converting user needs into actionable IT tasks and identifying gaps between current and future-state operations to drive process improvements.

Recruiter — Bundle Technology Pvt Ltd

Nov 2018 – Jun 2020 | Lucknow, India

- Sourced, screened, and interviewed candidates across multiple roles, maintaining a strong talent pipeline.
- Managed end-to-end recruitment coordination including orientations, background checks, and offer communications using HRMS software.

KEY ACHIEVEMENTS

- Reduced requirement-clarification cycles by standardizing BRD/SRS/FRS documentation across project teams, improving development handoff speed.
- Improved stakeholder sign-off turnaround by presenting technical concepts through clear Figma mockups and simplified business documentation.
- Strengthened cross-functional collaboration across 3+ departments by establishing consistent stakeholder communication cadences in Agile/Scrum environments.

PROJECTS

Vendor Collection & Payment Management System | *Google Apps Script, Google Sheets, JavaScript* 2025

- Designed and implemented a centralized Vendor Collection & Payment Management System using Google Apps Script and Google Sheets, automating payment tracking, collection status monitoring, and balance reconciliation.
- Developed role-based dashboards and automated email reminders, reducing manual follow-ups, and built real-time MIS reports that cut manual data processing effort by 60% through workflow automation.

Order Management System (OMS) | *Google Apps Script, Google Sheets, JavaScript, HTML, CSS* 2025

- Developed an Order Management System using Google Apps Script to automate order creation, approval workflows, status updates, and inventory coordination, with user-friendly interfaces for order entry and tracking across departments.
- Implemented real-time order dashboards, reducing order processing time by 40% through automation and workflow optimization, in collaboration with stakeholders to translate business needs into technical solutions.

Sales Executive Management & Performance Tracker | *Google Apps Script, Google Sheets, JavaScript* 2025

- Built a Sales Executive Performance Tracking System using Google Apps Script and Google Sheets, automating activity tracking, lead management, target monitoring, and performance evaluation with role-based access controls.
- Designed interactive KPI dashboards and automated performance reports and incentive summaries, improving reporting accuracy and reducing manual effort by 70%, enabling data-driven management decisions.

Workassist – End-to-End Requirement & UX Delivery | *BRD, Figma, Slack, ClickUp, SRS, UAT* Mar 2024

- **Requirement Gathering, UI/UX Coordination & Testing:** Partnered with stakeholders to gather functional and business requirements into a comprehensive SRS, led knowledge-transfer sessions with the UI/UX team to guide Figma mockups, and drove UAT participation to ensure the final product met all acceptance criteria.

CERTIFICATIONS

- Agile & Scrum Methodologies – Foundational Training
- Business Analysis Fundamentals (BRD/SRS/FRS Documentation)
- SQL & Data Analytics with Excel

SOFT SKILLS

Stakeholder Management • Cross-functional Collaboration • Problem Solving • Critical Thinking • Communication & Presentation • Leadership & Team Coordination • Adaptability • Time Management
